Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	<i>cultural heritage</i>
Description or summary of the proposed project	The project aims to increase the media literacy of regional journalists, cultural sector specialists (cultural heritage preservation), members of creative teams and producers in the media sector regarding the need to preserve and recognize the cultural heritage of national minorities (Roma, Jews, etc.) which was systematically destroyed by the Nazi and communist regimes. Our analytical team conducted a study of the state of activity in this direction in Ukraine and European countries. There are countries and nations that are leaders in organizing the processes of preserving and recognizing the cultural heritage of national minorities, but there are the vast majority of countries, that have not started or have initial results. We see the need to conduct a number of trainings and conferences for representatives of the target audience (specified earlier) and to create a diverse audiovisual product, with the participation of the Ukrainian cultural broadcaster Ukraine Forever and these representatives to form a general message for a wider audience.
Partners currently involved in the project	Norway. Volodymyr Filipov Ukraine, Ukrainian Society for the Protection of Historical and Cultural Monuments.
